Current Concepts in Oral and Maxillofacial Radiology

By: Juan F. Yepes DDS, MD, MPH, MS, DrPH
Associate Professor, Indiana University School of Dentistry

And....HDS’s Fraud and Abuse Program
By: Minna Lehti, Director of Compliance

Tuesday, September 9, 2014
Registration and Dinner: 5:00 PM - Session: 6:00 to 8:30 PM
Japanese Cultural Center of Hawaii - Manoa Grand Ballroom
2545 South Beretania Street - Validated Parking

Learning Objectives

• Participants will understand the fundamentals of radiation biology and current principles of radiation safety and protection (ALARA) and apply these principles in daily clinical practice.

• Participants will understand and be able to discuss the current advantages and disadvantages of Cone Beam Computerized Tomography (CBCT), digital and conventional film based imaging techniques and the clinical indications for CBCT in dentistry.

• Participants will understand the 2012 FDA/ADA Recommendations for Prescribing Radiographs and the National Council on Radiation Protection & Measurements (NCRP) Report No. 145 and apply these principles in daily clinical practice.

• Participants will understand the importance and need for Quality Assurance in oral and maxillofacial radiology and apply these principles in daily clinical practice.

Juan F. Yepes DDS, MD, MPH, MS, DrPH is an associate professor in the Department of Pediatric Dentistry at Indiana University School of Dentistry in Indianapolis, Indiana. Dr. Yepes is a Diplomate of the American Board of Oral Medicine, The American Board of Dental Public Health and the American Board of Pediatric Dentistry. He was the section head of Oral and Maxillofacial Radiology at the University of Kentucky and has served on the Executive Committee of the American Academy of Oral and Maxillofacial Radiology.

Dr. Yepes is a fellow in dental surgery from the Royal College of Surgeons at Edinburgh, Scotland. His research interests are in the area of radiation safety in adults and children, quality assurance in radiology and the use of new imaging technologies in dentistry.
