OSHA, 3D RADIOLOGY AND DENTAL ETHICS 2020

A full day of virtual enrichment

THURSDAY, DECEMBER 10, 2020 | 8:00 a.m. – 4:00 p.m. 3 courses up to 7 credits via Zoom

OSHA and Infection Control

Thursday, December 10, 2020 | 8:00 a.m. - 10:00 a.m. | 2 CEs, Lecture

COURSE OBJECTIVES:

This course will provide an overview of the most recent CDC, OSHA and ADA recommendations to augment an existing Infection Control/Exposure Control plan in the dental office in this COVID-19 pandemic.

LEARNING OBJECTIVES:

Upon completion, attendees will be able to:

- Be able to understand the rationale for the current infection control recommendations.
- Incorporate the standards into their existing protocols.
- Discuss current distancing safety devices and/or techniques.

PRESENTER: FADY FADDOUL, DDS, MSD

Dr. Fady Faddoul is a 1988 and 1992 graduate of Case Western Reserve University School of Dental Medicine.

Dr. Fady Faddoul is professor and Chairman of the Department of Comprehensive Care. Additionally, he serves as the director of the implant program and is the infection control and safety officer for the school. He is a 1988 graduate of the Case Western Reserve University School of Dental Medicine, where he also completed his advanced education in general dentistry and oral medicine training, as well as his Master of Science degree in oral medicine in 1992.

He has lectured extensively in the national and international arenas on the topics of implants, infection control, medical emergencies, and the management of medically compromised patients. Dr. Faddoul is an active member of organized dentistry, serving as the current president of the Greater Cleveland Dental Society. He is a member of the Commission on Dental Accreditation (CODA) and the Commission on Dental Competency Assessments (CDCA).

Dental Radiology and Implantology

Thursday, December 10, 2020 | 10:15 a.m. - 12:15 p.m. | 2 CEs, Lecture

COURSE OBJECTIVES:

Dentists use X-ray imaging every day to assist in treatment planning for implant placement. Cone beam imaging (CBCT) helps dentists assess pre-surgical implant sites more quickly and place dental implants more precisely. Data from these scans is used to create precise surgical guides, simplify the surgical procedure and reduce the risk of adverse damage to an anatomic structure. Cases will be shown that illustrate where CBCT was not used. In addition, Dr. Miles will discuss and offer tips to improve the diagnostic quality of your everyday X-ray images.

LEARNING OBJECTIVES:

Upon completion, attendees will be able to:

- Understand the utility of CBCT for implant planning.
- Visualize more precisely selected pre-surgical implant sites.
- Observe demonstrations of powerful 3D software for implant planning.
- Understand how to reduce the potential liability by using cone beam imaging.

PRESENTER: DALE A. MILES, BA, DDS, MS, FRCD(C)

Dr. Miles is a Diplomate of the American Board of Oral and Maxillofacial Radiology and the American Board of Oral Medicine, and has been selected as one of the "Top Clinicians in CE" for the past 15 years by *Dentistry Today*.

He previously was appointed as chair of the Department of Oral Health and Sciences at the University of Kentucky, director of the graduate program of Diagnostic Sciences at Indiana University, and has held positions at the University of Connecticut, Dalhousie University, and the Arizona School of Dentistry and Oral Health. Dr. Miles has authored over 135 scientific articles, 6 radiology textbooks and the best-selling *Atlas of Cone Beam Imaging for Dental Applications*. He has a website for teaching the dental team about digital imaging at www.learndigital.net and cone beam imaging at www.doctorconebeam.com. Dr. Miles maintains a full-time oral and maxillofacial radiology practice in Fountain Hills, Arizona, where he has read close to 28,000 cone beam scans.

Dental Ethics 2020

Thursday, December 10, 2020 | 1:00 p.m. - 4:00 p.m. | 3 CEs, Lecture

COURSE OBJECTIVES:

Untoward events in Hawaii and the mainland continue to bring dental ethical issues to the spotlight of the general public. This interactive course will cover the basis of ethical behavior in the profession of dentistry. The importance of the ADA Code of Professional Ethics in the conduct of daily practice and in dental coding will be discussed.

LEARNING OBJECTIVES:

Upon completion, attendees will be able to:

- · Understand and discuss the principles of nonmaleficence, beneficence, autonomy, veracity, and justice.
- Understand and discuss the ADA's Code of Professional Conduct.
- Identify and avoid specific unethical behaviors related to dental coding and claims submission in daily dental practice.

PRESENTER: ROBERT G. SHERMAN, DMD, FACD, FICD

Robert G. Sherman, DMD, FACD, FICD, is a graduate of Fairleigh Dickinson University School of Dentistry and a retired U.S. Navy Captain (O-6) with 27 years of active duty serving a wide variety of clinical, academic, administrative and leadership positions. He is the immediate past president of the American Association of Dental Consultants and is a Diplomate of the American Board of Oral Medicine. He has served as a commissioner and site visitor for CODA and is a former member of the Hawaii Board of Dentistry.

PRESENTER: TIMOTHY TATE, J.D.

Timothy Tate has been the Deputy Attorney General for the State of Hawaii since 2017. He received a BA in political science from the University of Hawaii, and a Juris Doctor degree from Pepperdine University School of Law. He has worked in the justice system for Hawaii for over 25 years and has served as deputy public defender, insurance fraud investigator, and deputy prosecutor. As the Deputy Attorney General, he is assigned to prosecute cases involving Medicaid provider fraud, and crimes against patients within care facilities in Hawaii.

SAVE THE DATE! VIRTUAL REGISTRATION DETAILS COMING IN NOVEMBER

Cost: Complimentary

Please cancel 24 hours before the event if you are unable to attend. Zoom registration details to come.

Applicate Pacific Program Again MAGD credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from (4/1/2017) to (3/31/2020) Provider ID#218678
